Re: GN Docket 11-65

Dear Chairman Genachowski and Commissioners:

As President and CEO of the Paulding County Chamber of Commerce in Georgia, I urge you to support AT&T's acquisition of T-Mobile.

Through an active and diverse membership, the Chamber works to improve the economy and quality of life for our members and our community. We strive to help our businesses grow, succeed, and remain in Paulding County.

This merger will increase the availability of wireless broadband across our communities. Connecting our businesses to the global world is critical to their success. AT&T's commitment to bring 4G LTE to more citizens will lead to increased investment and economic growth. It will allow our businesses to compete more effectively and increase their customer bases.

It is also important that we provide access to wireless broadband for our most important "stakeholders" – our students. Paulding County businesses and organizations have a vested and active interest in the continued success of our youth. Giving our students access to the many educational opportunities available online will only benefit our community and encourage growth.

Again, please give approval to AT&T's merger with T-Mobile. Thank you for your consideration.

Best Regards,

Carolyn S. Delamont
President/CEO
Paulding Chamber of Commerce

CC: Commissioner Mignon Clyburn
Commissioner Michael J. Copps
Commissioner Robert M. McDowell
